5. According to the notes, what is the relationship between morals, ethics, and law?

- a) Law → Ethics → Morals
- b) Morals → Ethics → Law
- c) Ethics → Morals → Law
- d) They are completely independent of each other

6. Which statement is TRUE regarding law and ethics?

- a) Everything that is legal is always ethical
- b) Law and ethics always align perfectly
- c) Not everything unethical is illegal
- d) Laws are not influenced by ethics

7. A person refuses to pirate software because they believe stealing is wrong even if no one will know. This is an example of:

- a) Legal compliance
- b) Ethical reasoning
- c) Moral belief
- d) Professional responsibility

8. Which type of ethics focuses on establishing standards or norms for behavior?

- a) Meta-Ethics
- b) Applied Ethics
- c) Normative Ethics
- d) Descriptive Ethics

9. According to the notes, which statement is correct?

- a) You can never be ethical, moral, and follow the law at the same time
- b) Ethics, morals, and law always work together
- c) Morals are enforced by courts
- d) Ethics comes from government legislation

10.The systematic study of what is right and wrong, guiding principles that govern behavior is the definition of:

- a) Morals
- b) Ethics
- c) Law
- d) Culture

11.Which ethical theory states that the choice yielding the greatest benefit to the most people is ethically correct?

- a) Deontology
- b) Virtue Ethics
- c) Utilitarianism
- d) Rights-based Ethics

12.Utilitarianism is most strongly associated with which philosophers?

- a) Plato and Aristotle
- b) Jeremy Bentham and John Stuart Mill
- c) Immanuel Kant and Hegel
- d) Socrates and Confucius

13.Which type of utilitarianism evaluates each individual act based on its specific consequences in a particular situation?

- a) Rule Utilitarianism
- b) Act Utilitarianism
- c) Normative Utilitarianism
- d) Consequential Utilitarianism

14.According to deontological ethics, an action is morally right if:

- a) It produces the greatest good for the greatest number
- b) It is performed by a person of good character
- c) It follows moral duties and rules regardless of outcomes
- d) It makes the decision-maker happy

15.Which ethical theory asks "what kind of person should I be?" rather than focusing on rules or consequences?

- a) Utilitarianism
- b) Deontology
- c) Virtue Ethics
- d) Teleology

16.A developer who discovers a security flaw and discloses it honestly rather than ignoring it is demonstrating which virtue?

- a) Prudence
- b) Courage
- c) Integrity
- d) Fairness

17.Which weakness is associated with deontological ethics?

- a) It cannot predict consequences accurately
- b) It lacks concern for the consequences of actions
- c) It only considers personal feelings
- d) It ignores moral duties

- d) Emails should not contain offensive content

29. According to the notes, which is NOT a dimension of professional responsibility?

- a) Confidentiality
- b) Integrity
- c) Maximizing shareholder profit at all costs
- d) Competence

30. What should a computing professional do when facing employer pressure to perform unethical actions?

- a) Always follow employer instructions
- b) Ignore professional ethical standards
- c) Consider professional ethical standards and codes of conduct
- d) Quit immediately without discussion

31. Which of the following is a direct identifier under data protection laws?

- a) IP address
- b) Device ID
- c) National ID number
- d) Location data

32. Sensitive (special category) personal data includes all of the following EXCEPT:

- a) Health information
- b) Religious beliefs
- c) Email address
- d) Genetic data

33.Which of the following is NOT an element of valid consent?

- a) Freely given
- b) Specific
- c) Permanent and irreversible
- d) Informed

34.The data protection principle that requires organizations to collect only data that is adequate, relevant, and limited to what is necessary is called:

- a) Purpose limitation
- b) Data minimization
- c) Storage limitation
- d) Accuracy

35.According to the storage limitation principle:

- a) Data must be kept forever for reference
- b) Data must not be kept longer than necessary for its purpose
- c) Data can be kept indefinitely if encrypted
- d) Data must be stored in multiple locations

36.The principle requiring organizations to comply with all data protection principles and demonstrate compliance is called:

- a) Integrity
- b) Confidentiality
- c) Accountability
- d) Transparency

37.The privacy vs security debate centers on:

- a) Whether privacy is a fundamental right
- b) How much personal privacy should be given up to achieve greater security
- c) Whether security measures are effective
- d) The cost of surveillance systems

38.Which ethical perspective suggests that if surveillance produces greater overall safety, it may be justified?

- a) Rights-Based View
- b) Utilitarian View
- c) Deontological View
- d) Virtue Ethics View

39.What is the "chilling effect" in the context of government monitoring?

- a) When surveillance equipment malfunctions in cold weather
- b) When citizens self-censor because they know they are being monitored
- c) When monitoring reduces cybercrime rates
- d) When surveillance systems are turned off

40.Lawful interception refers to:

- a) Illegal access to communications
- b) Legal access to confidential communications by a government agency
- c) Intercepting communications without authorization
- d) Blocking all telecommunications

41.Which Ugandan law criminalizes unauthorized access, cyber harassment, and electronic fraud?

- a) Data Protection and Privacy Act
- b) Computer Misuse Act, 2011
- c) Electronic Transactions Act
- d) Uganda Communications Act

42.The Data Protection and Privacy Act in Uganda was enacted in which year?

- a) 2011
- b) 2010
- c) 2019
- d) 2013

43.Which Ugandan law provides legal recognition of e-commerce and electronic contracts?

- a) Computer Misuse Act
- b) Electronic Signatures Act
- c) Electronic Transactions Act, 2011
- d) Regulation of Interception of Communications Act
